

Sprint Report 1

Marine Plastics

4/23/2018

Actions to Stop Doing

- Procrastinating
- Pushing back meetings

Actions to Start Doing

- Communicating faster on Slack
- Taking more personal initiative on certain items

Actions to Keep Doing

- Hype and good morale
- Conversations and communication with Clean Oceans

Work Completed/Not Completed

Completed:

- User Story 1: As a developer, I want the MLab database to be more flexible so that the input options do not have to be hardcoded.
- User Story 2: As a citizen scientist, I would like the site to be actually launched and public.
- User Story 4: As a developer, I want to learn D3 so that I can create the data visualizations.
- User Story 5: As a citizen scientist, I would like the form to be organized by what kind of clean up I did to have a cleaner interface.

Not Completed:

- User Story 3: As a representative of Clean Oceans International, I would like there to be a lot of data on the site so that I can use it to demonstrate how much plastic has been cleaned up.

Work Completion Rate

User Stories Completed: 4

Total Ideal Working Hours Completed: 25

Sprint Length: 21 days

Stories per Day: 0.19 stories/day

Ideal Work Hours per Day: 1.19 hours/day

Final Burnup Chart
