Work Completed/Not Completed

Completed:

- User Story 2: As a representative of Clean Oceans, I would like to filter the clean up sites based off of what kind of trash so I can see which sites have certain amount/kinds of trash in a list or on the map.
- User Story 3: As a representative of Clean Oceans, I would like there to be input validation on the form so that the data is uniform and useful.

Not Completed:

- User Story 1: As a representative of Clean Oceans, I would like to have pie charts and bar graphs of the amount of trash per beach so I can visualize the trash.
